### Duties:

The primary purpose of this contract is Provide Aerospace Medicine Physicians/Providers on a rotational/temporary basis to any of the 11 AETC Medical Treatment Facilities/AETC units. This position directly supports Aerospace Medicine Dispositions and Flying Training Waivers for all AETC Flying Training Programs. This process may require but is not limited to chart review, review of additional medical documents, support with investigations, coordination with civilian and military medical providers, coordination with submission sources

within the line of the Air Force, coordination with higher headquarters (HAF/SG), and consultation with the Aeromedical Consultation Service (ACS) at the USAF School of Aerospace Medicine (USAFASAM). Further duties include accomplishing medical evaluation and adjudication of medical requirements and waivers specifically related to accessions waivers, medical examinations, health assessments, physical evaluation, fitness for duty and disability determinations on various types of cases, and other similar physical medical cases submitted to AETC/SGPS for determination and action. This includes assistance in formulation of responses and dispositions to individual cases as well as making recommendations for development of policies that guide the decisions which are ultimately made by the SG director. Contracted personnel may provide strategic direction project planning and scheduling development and general administrative support functions which may include tasking support functions, consultation functions, meeting attendance, briefing development and support and other such duties as directed within the scope of the contract.

---

**I have read and fully understand the minimum qualifications and duties and will comply with all requirements under this contract service.**
